Miami-Dade County Public Schools (M-DCPS) has over 400 facilities, including schools and operational facilities, serving over 334,000 students, their parents, and 41,000 employees. The School Board should have a clear understanding of the different procedures in place to ensure that structural integrity building inspections and follow-up actions are implemented in a timely fashion. Therefore, this agenda item seeks to direct the Superintendent of Schools to present a report at the Facilities and Construction School Board Committee meeting on August 11, 2021, with information related to protocols for building inspections, evaluation of structural integrity conditions, educational facilities code compliance, and possible budget enhancements to improve the delivery of these functions, if applicable.

This item has been reviewed and approved by the School Board Attorney's office as to form and legal sufficiency.
