

SCHOOL SAFETY

CHIEF EDWARD J. HUDAK, JR.

UNDERSTANDING SCHOOL THREATS

LAW

- Any person who communicates a threat to kill, do great bodily injury, conduct a mass shooting or an act of terrorism in a way that another person could view it commits a felony of the second degree under statute 836.10. The communication does not need to be sent directly to another person to be considered a threat. If any person can see the message, it is a threat.
- What can we all do to mitigate?
 - Engage in conversation with your child about their school life
 - Become informed about the social media they use
 - Discuss current events and relevant legislation

CURRENT SCHOOL THREAT AWARENESS CAMPAIGN

The #ItsNoJoke awareness campaign is aimed at addressing school threats made by students in Florida, as these threats can result in felony charges. The campaign further seeks to educate youth and parents that threats of violence include statements made anywhere online. Making threats, even if it is in jest, can have serious consequences. Youth, parents, and teachers are also encouraged to report any and all threats they see or hear. They can notify law enforcement or report a threat anonymously through Florida's FortifyFL App.
